

Memo

Date:	September 4, 2014
To:	Mayor and Councilmembers
From:	Shane Kelton, Operations
Subject:	Agenda Item for September 16, 2014 Council Meeting
Contact:	Shane Kelton – 325-657-4206
Caption:	CONSENT
	<u>Consideration of approving a request for permit for the transport and disposal of garbage, trash and debris within the San Angelo city limits and any service that is allowed by state law or city ordinance that does not conflict with the City's contract with Republic Waste Services of Texas (Republic) and the exclusive rights granted by that contract to Republic for J-Bar Solutions and authorize the City Manager to execute any necessary related documents</u>
Summary:	<p>City Staff has received an application for permit for the transport and disposal of garbage, trash and debris within the city limits of San Angelo from J-Bar Solutions (San Angelo, TX). The application specifically requests that, within the city limits, permits are issued to haul waste and recyclable material that is not legally included in the exclusive contract of Republic by specific exception, city ordinance, or state law. The application also requests that the permit allow for the transporting of appropriate waste collected outside the city limits in Tom Green County and other nearby counties that are within an economically feasible hauling distance to the City owned landfill for disposal.</p> <p>This permitting request is allowable by ordinance and is at the discretion of City Council. The City currently has a special exclusive contract in place with Republic to provide for the collection, removal, transport and disposal of garbage, trash and debris within the city limits of San Angelo for residential and commercial services and that contract grants Republic exclusive right to provide these services within the city limits with few exceptions. Exceptions include: 1) Commercial, institutional and industrial businesses may, by obtaining a permit pursuant to City Ordinance, haul their own garbage trash and debris; 2) Contractor shall not be required to pick up and/or dispose of any type of medical waste, liquid waste, automotive tires, oil filters, lead acid batteries, petroleum products and by-products and/or explosive material; 3) Recycling services.</p> <p>Based on the City's current contractual obligations, the issuance of a permit to the applicant would be limited to the <u>transportation and disposal</u> of garbage, trash and debris within the city limits of San Angelo and any service that is allowed by state law or city ordinance. An example of services allowed by state law and city ordinance could include the collection and disposal of liquid waste as well as providing recycling services within the city limits.</p> <p>By ordinance, issued permits are valid for one year and may be renewed on an annual basis. All permits granted shall be non-transferrable and may be revoked by the council after ten days notice and hearing before the council upon a finding by said council that the holder thereof is operating under his permit in such a manner as to be detrimental to the public safety, health or the general welfare of the city.</p>

History:	Two other such permits to transport and dispose of garbage, trash, and debris are currently issued by the City of San Angelo.
Financial Impact:	Possible increase in revenue based on an assumption of increased tonnage disposed at the Landfill.
Related Vision Item (if applicable):	None
Other Information/ Recommendation:	Staff recommends approval of Solid Waste Hauling Permit #2014-01 to J-Bar Solutions of San Angelo, TX.
