

## Unanswered Questions asked of the City San Angelo

Over the course of the last 69 days, the City of San Angelo (“City”) has been asked the following questions related to landfill and waste collection operations. As of the date of this document, these important questions remain unanswered:

1. The City has been asked to confirm the approved ordinance rates that permitted haulers must charge customers for collecting solid waste from construction sites located inside the City limits. This question was posed to the City on April 14, 2014.
2. The City has been asked to confirm to which City department permitted waste haulers are required to remit monthly Franchise Fees, Inspection Fees, and Landfill Surcharges. This question was posed to the City on April 14, 2014.
3. The City has been asked to quantify the overall value of the existing 10-year agreement between the City and Republic Waste Services (“Republic”) for Waste Collection and Disposal and Landfill Lease and Operation services. This question was posed to the City on April 1, 2014.
4. The City has been asked to release the entire scoring matrix results for RFP proposal responses received from Republic and TDS and scored in response to RFP No. OP-01-14. This request was posed to the City on April 1, 2014.
5. The City has been asked whether all three TDS proposals for landfill services and seven proposals for collection services were reviewed and scored. This question was posed to the City on April 1, 2014.
6. The City has been asked to clarify whether the work of the Proposal Evaluation Committee for RFP No. OP-01-14 was complete, or whether the Committee would participate in contract negotiations. This question was posed to the City on April 1, 2014.
7. The City has been asked to provide copies of approved ordinances allowing for the billing and collection of Fuel/Environmental Recovery Fees from commercial, institutional, industrial and rolloff customers billed by Republic. This request was made to the City on March 12, 2014 and again on April 1, 2014.
8. The City has been asked to quantify the amount it receives from the current Fuel/Environmental Recovery Fees being charged by Republic to commercial, institutional, industrial and rolloff customers inside the City. This request was made to the City on April 1, 2014.
9. The City has been asked to determine and report the length of time Republic has billed the Fuel/Environmental Recovery Fee to commercial, institutional, industrial and rolloff customers inside the City. This question was posed to the City on April 1, 2014.
10. The City has been asked whether rising fuel costs were reported by Republic as the justification for past increases to the approved basic service rates charged to commercial, institutional, industrial and rolloff customers. This question was posed to the City on April 1, 2014.
